10th Anniversary of my Salvation and God's Judgment against ESRI

*He is your best worker, isn't he?
- Jesus Christ*

“The stone the builders rejected has become the cornerstone; the LORD has done this, and it is marvelous in our eyes.” (Psalm 118:22-23)

Ten years after ESRI tried to murder me for the first time, they continue to do evil, poisoning the hearts of men and causing the perdition of many souls. They have never repented for their sins, even though they were in the presence of the Almighty. They did not respect the Will of our Lord and rebelled against Him. Because of this, God's Glory will be much greater.

My Assailants

Jack and Laura – The proud owners of ESRI.

Bill D. – The blasphemer.

D.B.– A monster. He astro-projected and tried to give me a heart attack while I slept, by order of his bosses.

Duane – He was my manager. I loved him like a father and was the only one who called him Mr. Niemeyer because I respected him very much. But when I needed a friend and told him the truth about the crimes that they were committing against me and shared with him my pain and suffering, he betrayed me and delivered me to my enemies to be murdered. I loved him very much and I would have prayed for him day and night, for the rest of my life, to gain for him my Father's forgiveness, if he had only repented his sins. But he hardened his heart and decided to stay on the path of evil.

Cindi Tompkins – The Vicious human resources manager. She enjoyed making me suffer when I was already so sick from all the pain that they had caused me. She knew the truth, but she still accused me of making everything up and fired me without remorse.

Rob Jordan – He hacked into my computer and stole from me, even though I was very poor. I forgave him for everything that he did to me and for all my suffering with a kiss on the cheek.

Lee – The compassionate one. God allowed me to save one of them and I chose him. He was the only one who took pity on my suffering and that is why God forgave him.

Last Paycheck

“A Gesture of the Generosity and Good Will of the Owner of ESRI”

They paid me some of the money that they owed me for all my hard work, while they tried to secretly murder me at the same time. They never compensated me for the ideas that they stole from me when they hacked into my computer.
