Give Wings

*Today, give a hug of love
and a sun of happiness.
Feel the joy of being able to bring
peace to your brother.*

*Forget the resentments already!
You can't heal your wounds,
if you leave the guilty suffering.
You both share the same pain.*

*Don't let your pride defeat you.
Many have made that mistake.
Set aside the bad memories
that don't let you see how much he loves you.*

*Don't let him sink anymore!
Forgive him and be happy for him,
because, thanks to you,
he flies freely, with wings of peace.*
