Children Of One True God

Luis Angel López

Little brothers and sisters,

*Stay away from the fools who preach hatred.
The one who hates his brother does not love God,
because we are all children of God
and make only one flock*

*God makes us in His image and likeness.
Do not look for faults in his work without a reason.
Was it not His love that you so desired?
If you look closely, you will find Him in what you used to hate.*

*The sick come to learn a lesson,
but also to awaken your compassion.
God creates His children with love and without defects.
In spirit, they were, are, and will always be perfect.*

*Do not deny homosexuals the joy of falling in love.
They are also born pure, full of happiness and illusions.
It's the jokes and rejection that make them sin,
and your intolerance doesn't have justification.*

*And my little Jewish brothers and sisters who I love so much...
may God protect and comfort them,
because they have already suffered by your sword
death and exile.*

*How many wonders that God creates, like stars in the sky!
They all adorn the universe with their brightness and their mystery.
Go ahead, ask Him what you wish!
May you experience only the most beautiful things in life.*
