Hypocritical United States Government

Luis Angel López Salazar

I have fought for many years to survive, while my enemies tried to kill me so that I would not fulfill my missions. Because of them millions of innocents have died because they did not let me serve God. The Lord declared me innocent but the government of the United States does not respect the Holy Will of God because it cares more about acquiring new advanced technology than justice, and it even judges me for receiving Social Security benefits, while it allows my enemies to continue to hurt me so much.

God declared me innocent and condemned the people from Environmental Systems Research Institute who attacked me to hell for all their sins. But the government of the United States defends my enemies who rebelled against God, while it judges me. It even threatened me when I sought justice. Meanwhile, it has dedicated itself to secretly investigating the supernatural to try to use it as a weapon. I warned everybody not to do this; everybody knows very well what happens to all those who rebel against God like ESRI.

The government of the United States does not respect the Holy Will of God nor its own laws. It seems as if it does not care about justice, nor human life, nor the planet. It is more interested in acquiring new advanced technology that allows it to continue fighting its endless wars that have killed so many innocent people. It has been at war 91% of the time, since its founding in 1776, and has only known 21 years of peace. It is also guilty of the worst crime in the history of humanity: the genocide against my Native American people.

It also denied me the human right to work and earn an honest living by denying me justice for all the crimes that my enemies committed against me, and allowing them to continue to harass me, defame me and try to kill me with absolute impunity, while I tried to serve my Father and fulfill His Holy Will. That is why I became seriously ill in 2009 and I had no other option but to apply for Social Security Disability because I was dying from all the damage that they were doing to me. But the first time that I requested it, the judge abused her authority and lied in her report to deny me my benefits. I had to wait many more years to finally receive my benefits; but I did not receive all the benefits that I was entitled to because too much time had gone by and I was no longer insured. Even so, it does nothing more than to judge me, while I continue to fight to survive and serve God.

Hypocritical government! It rebelled against the Lord Almighty. It knew the whole truth and, even so, it denied everything. It did not respect the Holy Will of God nor its own laws. The Lord declared me innocent and it only seeks to punish me and make me suffer, while it defends my enemies who rebelled against God and are guilty of crimes against humanity. It has forgotten that I come from God and He forbade it to harm me.
